- *Recreation and Conservation*
- *Wildfire*
- *Aquatic Resources*

Aquatic Resource Division's manages State Owned Aquatic Land, established at Statehood (1889). 2.6 Million Acres.

Our role is Proprietary (i.e. land owner or landlord) not Regulatory

# Aquatic Resource Division's Management Goals

(RCW 79.105.030)

Provide a balance of public benefits for citizens of the State through:

- Ensuring environmental protection
- Encouraging direct public access
- Utilizing renewable resources
- Fostering water dependent uses such as navigation and commerce
- Generate revenue when consistent with these public benefits. Revenue is generated by selling geoducks and leasing aquatic lands for marinas, shipyards, commercial buildings, parks, and other uses.

# Aquatics Revenue Split from Leasing

## Aquatic Lands Enhancement Account ALEA

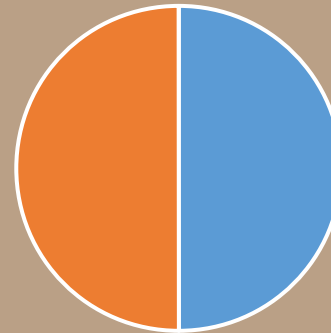

## Resource Management Cost Account RMCA
